Imagine a school in which both students and staff share a comfortable learning environment. Where does learning take place and what roles do topics like health, the environment, and mutual appreciation and tolerance play in this? You can use this poster to make your own suggestions as to how and where you want to learn. Fill in the speech bubbles with your ideas and opinions. If there are any situations missing from the poster, you can draw and colour these on a separate piece of paper and glue them to the poster.

Send a photo of your poster to forum@umweltbildung.at. We will publish your ideas on the FORUM Umweltbildung Facebook page. More info can be found at www.umweltbildung.at/lernweltgestalten.
